Silver Plus is a retractable roof system, adapted to aluminium structure. With its clean and modern design, Silver Plus adds value to your outdoor areas.

The product is usable according to its User Manual in all-weather conditions and designed to be used in all four seasons. If desired the product can be made into retractable winter garden by closing the sides with different kinds of enclosures.

EGS presents a wide range of ceiling covers, with a selection of colours, materials, (such as PVC, fabric) and patterns which are imported from Europe and U.S, with 5 years guaranty against fading and mould.

EGS is proud to present the Exclusive Fabric Collection with unique patterns and colors, with options of Exclusive Fabric Profiles and Exclusive 3 Axis Lightings.

The entire drainage system is integrated into the structure and lighting systems can be adapted to the ceiling cover which moves together with it.

The Spot Lights, Linear Lights or 3 Axis Lights are installed on the aluminium profiles and can be controlled by a remote control or with a remote controlled dimmer function.

Each of our products is hand crafted and in itself unique, and from ceiling cover to construction material, you can completely customize your products.

CONTROL & AUTOMATION

CONNEXOON

Designed to easily control your product wherever you are in the world, despite the weather changes you can remotely activate your products accordingly.

Compatible with iOS and Android smartphone systems. You can assign multiple functions through created scenarios, you can give a one-touch command.

A Telis 1 - Pure Elegant design that allows you to easily control your product.
The standard control unity.

B Telis 1 - Lounge Elegant design with black color.

C Telis 1 - Patio IP 66 water-proof feature for outdoor use.

MULTI CHANNEL OPTIONS

Telis 1 is remote control with 1 channel, while the Telis 4 has got 5 channels. Telis 4 option is available for Pure, Lounge, Patio, RTS Lounge Roller and RTS Pure Roller.

D 16-channel ergonomic design that allows you to control all functions at the same time from one control. By digital screen feature you can control different products with a symbol and a number given for different products.

SUN SENSOR

It automatically opens product in sunny weather and provides maximum protection from the sun.

E Functional design that allows the adjustment of the illuminations to the desired level with the Roller feature.

WIND SENSOR

It measures the wind speed and automatically retracts your product when high wind speed is detected.

DETAILS & OPTIONS

WATER DRAINAGE & SEALING

The hidden part of the drainage system which was ingeniously integrated inside both beams and pillars makes effortlessly possible the discharge of water.

DOUBLE ANTI-AIR SYSTEM

- A** This system prevents the wind entering between the ceiling cover, rails and gutter, and creates an airtight space into which the wind cannot enter.

WATERBLOCK

- B** This prevents rainwater entering the enclosed area, and leads it directly to the front gutter for perfect water drainage.

Gutter Seal

Back Seal

DETAILS & OPTIONS

STRUCTURAL DESIGN

ELEGANT DESIGN

EGS Pergola's aesthetic appearance offers the best for those who desires elegance and perfection.

HIDDEN ASSEMBLY DETAILS

Plus and Compact series provide a clean surface and perfect view by concealing all connection details made with stainless steel screws and parts.

GEOMETRIC CROSS SECTION

With its geometric design, the specially engineered inner section gives maximum strength and wind resistance to the aluminium rail profile.

PILLAR BASE

Stainless steel base hides all the floor installations inside, drains the water to the outside and gives an exclusive finish to your product.

PROFILE CAP CHOICES

Give a personal touch to your pergola by choosing from a rounded or straight ended cap.

HORIZONTAL BEAMS

The front and side beam on the same horizontal level, giving a continuous line throughout the product, ensuring a smooth relaxing overall look, which is a delight to the eye.

* Doesn't include the compact series.

SEPARATE GUTTER PROFILE

RAIN GUTTER A

The gutter with its height adjustment feature, provides the anti-air system, in different positions to ensure a perfect fit, according to the inclination of your product.

SEPARATE FRONT BEAM B

The separated front beam carries all the weight of the roof without putting any pressure on the gutter. Additionally it is also responsible for carrying awnings and glass systems.

VERTICAL BLIND C

Horizontal sun rays can be reduced with a vertical blind. It is a full cassette awning and the Ferrari Soltis fabric, provides shade without interrupting the view.

GLASS SYSTEMS D

Different glass systems can be installed directly onto the front beam.
