

THE RIMINI RANGE

INTRODUCING THE RIMINI RANGE

A portal framed version of the Verona fluted canopy solution allows for several units to be joined in a line to provide continuous cover in a very wide variety of dimensions and colours.

The waterproof 90 system variant adds tremendous versatility to create a fully covered option.

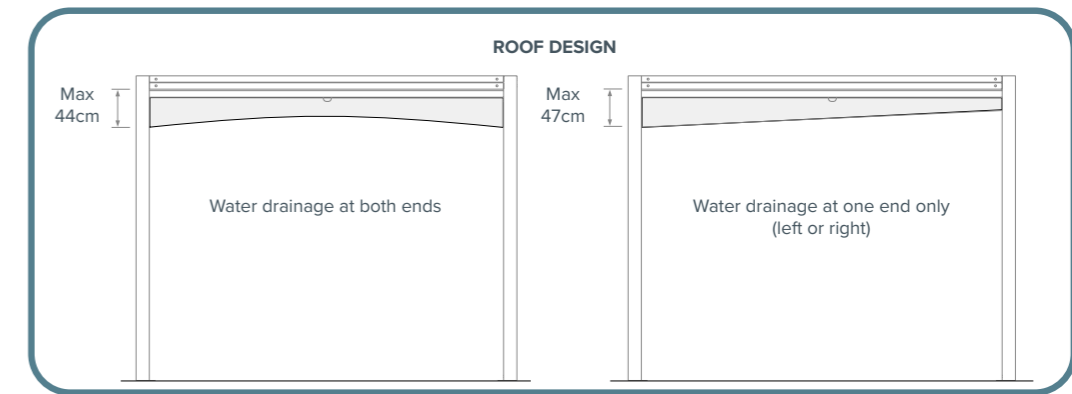

All options include the ability to add roll up, or central opening curtains and walling solutions.

Bespoke units can be manufactured at special dimensions so as to enable a precise fit to any space. Size is no problem – we can build what you need.

A full technical brochure is available.
